

**St. Mary's College School of Nursing**

**Roy Academia Nursology Research Center,**

**Tsuyako HIDAKA, Director; Nobu IDE, Advisor; Members of RANRC,**

**Offering our deepest condolences upon the passing of Dr. Jacqueline Fawcett**

Upon learning of the passing of Dr. Jacqueline Fawcett on March 22, 2026, we express our heartfelt condolences. We would like to express our gratitude for her tremendous support over the years and pray for her eternal rest.

As a visiting professor at St. Mary's College and Graduate School, Dr. Fawcett provided guidance on nursing theory and discussed her own research as well.

She also consistently took a keen interest in the activities of the Roy Academia Nursology Research Center, featuring our work on Nursology.net, and made a significant contribution to elevating the quality of our center's activities to an international level.

All of us at the Center remain in a state of shock and deep sorrow following the sudden news of her passing at the end of March. However, keeping Dr. Fawcett's slogan, "Onward!" close to our hearts, we are determined to continue moving forward toward the future so that we may contribute to the development of Nursology.

Dr. Fawcett's contributions are featured in volumes 1 through 7 of the *Nursology Letter*. Her contribution to this Volume 7 was her final manuscript.

We kindly ask for your continued support of our Center's activities.

Sincerely yours.

Roy Academia Nursology Research Center
